ABOUT THE THURSTON PLAYERS

In 1974, a group of Thurston Elementary School parents decided to write and perform an original musical to benefit the PTO. This organization became what the Thurston Players are today.

In the beginning, the annual fundraiser was an “adults only” production—written, performed, and produced by Thurston parents and teachers, as well as neighbors and friends of the community. Students from Thurston Elementary were included in the cast in 1997, leading the way to add middle school, high school and even college-aged Thurston alumni cast members throughout the years!

Tonight’s musical is the result of a full year of work by hundreds of dedicated people. Once this year’s musical comes to an end, there is a brief break until the Thurston Players’ Board of Directors is back in session to create the 2017 production. The Script and Lyrics Committees will get their creative juices flowing to craft a new musical, ready for auditions in October.

Anyone affiliated with Thurston Elementary School can be in or work for the musical—nobody is “cut” from the team, provided they (the children and the children’s parents) are willing to put in the time and effort. After auditions, parts are cast, and additional parts are created if needed. Parents of child actors and other willing adults are assigned to crew committees, such as publicity, advertising, make-up, refreshments, and ticket sales.

Three nights a week, the cast rehearses in the Clague Middle School Auditorium. Everyone involved works extremely hard to give their best performance and efforts. And if it wasn’t obvious already, everyone has a whole lot of fun!

Then, before anyone realizes, it is March 2017, and the wonderful bunch of neighbors—ages 5 to 75—will be ready to link arms onstage and sing once again:

“That’s all! That’s our show for this year
And we’re glad that you all could be here!”

Many thousands of dollars have been raised for our children at Thurston Elementary School over the years. You are as much a part of this musical as we are.

As we celebrate our 42nd anniversary, thank you againwe are so glad that you are here!

MEET THIS YEAR'S SENIORS

Hannah Briggs

Hannah has been in the play since first grade; her first role was that of a unicorn. Throughout the years she has been a swimmer, a noble, a witch, and now a comet. She didn't always perform, and often preferred set work such as lighting and set building. The lighting was her favorite job. Next year she plans to go to college for the pre-med program in hopes of becoming a surgeon.

Chrissy Hart

Chrissy has been in the show for three years. Her favorite role was in *Oh, What A Knight!* as one of the girls who helped rescue Aiden from the dragon. She was also a teen who went *Through the Fairy Door!* to find the lost ring. In addition to acting, she has been a part of the script and lyric committees. She has loved acting on stage, writing the play, and making great friends! Next year, she hopes to attend college at Yale.

Catie, Joseph and Chrissy,

So great to share some Space with you three - My droid, Ms Monitor, & my two Earthling kids!

MEET THIS YEAR'S SENIORS

Kristen Hayden

Kristen has been part of the show for twelve years and most enjoyed being Shaggy in *Mayan Twilight* and a scientist in *Don't Hold Your Breath*. Her backstage accomplishments include painting many things black, learning to use power tools, and making turkey legs and that view of Earth through the spaceship window. Heading to college next year, she will hopefully study environmental science and eventually curb climate change.

Nisha Gudal

Nisha's roles include a festival parade dancer, a kid mobster, an AV nerd, and a puppeteer. This year she plays Oppenheimer. Her favorite costume was Googlemaps the Octopus in *Don't Hold Your Breath*. Besides acting, she has worked back stage and on the script committee. Nisha has many fond memories, including when she was younger she was always given the job of painting things brown. Next year, Nisha plans to go to college.

Congratulations Brynn and Kendra!

SOMEBODY'S WATCHING ME

Crop circles are the first
Sign that we always see
It's either U.F.O. ... or Martian activity

They may seem really scary
But no, we're not afraid!
If only we could catch one,
Then we would have it made!

I always feel like
.. somebody's watching me
Aliens surrounding me!
I always feel like
...somebody's watching me
Aliens surrounding me!

We are just average guys
We look at stars that move
Film all that we can find
Show all that we can prove

We're not alone on Earth
Oh yeah, we know it's true
We haven't found THEM yet
Hey wait!!? ... Have you?!?

*Elizabeth and Jacob are
out of this world!*

Whether they are
in the spotlight, or
shining the spotlight,
we are so proud of
these two amazing
people!

We love you!

MAMBO #8

One, two, three, four, five
Everybody in the room,
so come on let's ride 'round the ..
galaxy, take a spin and the moons
say...they want some fun..
But the planets don't wanna!

Let's work, got to fix a mess
Gotta make a plan,
'cause the time is short
We've got Mercury, Venus,
Earth, and Mars.
We'd like to welcome you
to the Summit.

A little bit of Mercury comin' thru
A little bit of Venus and her crew
A little bit of Earth is all we need
A little bit of Mars is what we see
A little bit of Jupiter come and sing
A little bit of Saturn and her rings

A little bit of Uranus in the room
A little bit of Neptune
... and their moons

Spin left and right
and rotate all around
Turn your clouds to the sound
Gravitate to the ground
Put one moon left
and one moon right
One to the front
and one to the side
Clap your hands once
and clap your hands twice
Now get ready for the summit, we
could use your advice

Congrats
Marisa

We're your interstellar girls
And we're here to save the world
You need help and we are ...
Women. In. Blue!

There is nothin' we can't do
And when danger calls
Just know that we are on our way
(...know that we are on our way)

All across the solar system
we're your crew
You just call our name ...
Women. In. Blue!

Call us, beep us,
if ya wanna reach us!
Just be sure to page us if you need
Don't you worry, we will save the
kids...guaranteed

Doesn't matter if it's day or night
Everything's gonna be alright
Whenever the planets need
Call us, beep us, if ya wanna reach us!

Doesn't matter where
Doesn't matter when
We will be there for ya
'til the very end

Danger or trouble
We're there on the double
You know that
you always can call!

BORN TO BE WILD

Got our spaceship flyin'
Cruising on the skyway
Lookin' for some treasure
And whatever comes our way
Plutonian Bounty Hunters
The cosmos is ours to take
Always ready to find someone

Got our spaceship flyin'
Cruising on the skyway
Lookin' for some treasure
And whatever comes our way

Plutonian Bounty Hunters
The cosmos is ours to take
Always ready to find someone
If there's money at stake

Like a true Pluto's child
We were born, born to be wild
And to fly so high
No more scrap-in' by
Born to be wild!!
Born to be wild!!

FLYING FUZZY MARTIAN EATERS

Well we saw these things
coming out of space
They had two long horns
on top of their face
We commenced to shakin'
and we said OOO-WEE!
They look like flying
Martian-eaters to me

We're two-horned, green-tailed,
flying, fuzzy Martian-eaters
Two-horned, green-tailed,
flying, fuzzy Martian-eaters
Two-horned, green-tailed,
flying, fuzzy Martian-eaters
Looks terr-I-fying to me!!

Well they bit the fuel line
and our ship wouldn't go

We said don't bite us
Martian-eaters, no no no
We hear them say in a voice so gruff
We only eat fuel,
'cause it's the best stuff!!

We bit the fuel line
and their ship wouldn't go
We'd never bite a Martian, no no no
We always say in a voice so gruff
We only eat fuel 'cause it's the best
stuff!!

FLYING SAUCER

I'm tired of the same old job
And the same old recreation.
My life in general bores
me to the core
I need a permanent vacation.

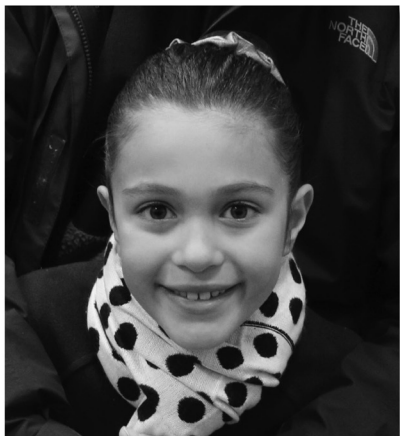

We search for aliens that are tall
And Martians that look like flies
But if we find anything at all
That would really be a big surprise

I wanna see a flying saucer
I wanna see a flying saucer
I wanna see it land
in front of my car
Fly in formation over my backyard
Or carry me off
to the nearest star

I want to see a flying saucer
I want to see a flying saucer

I don't want to read your book.
(... read your book)
I don't want to hear your tale.
(... hear your tale)
I don't want to see any
photos you took
Or get UFO news in the mail
(... U-F-O)
I want to see something
not from Earth
Something new to understand,
Something way beyond
Minecraft or mirth
Or playing music with this band.

To infinity and beyond!

Congratulations Éloïse,
our “Woman in Blue”!

FORD AND INDIGO

Darlin', you got to let me know:
Should I stay, or should I go?

You could be a decent couple,
If you would only lighten up, girl.
So, you got to let me know:
Should I stay, or should I go?

You think that I'm some tease.
So why should I be begging "please?"
You disappeared into the black.

Now, if you want her
off your back,
Boy, you got to let me know:
You gonna stay, or should I go?

What's with Ford and Indigo now?
What's with Ford and Indigo now?
Indigo is kind of stuffy,
And Ford is so happy-go-lucky.

AIR LOCK

It's astounding. Space is freezing.
Suffocation . . . Takes its toll.
You're all breathing,
But not for very much longer.
The Geese Are in control.

We remember some other traitors
Trying . . . to do us in.
You thought you could fool us,
But the void is calling...
Right out the air lock again!
Right out the air lock again!

It's just a turn to the left,
And then a pull to the ri-i-i-ight
Now put the humans in line,
And hold your breath real ti-i-ight.
But it's the vacuum thrust
That will implode
your brai-ai-ai-ain!

Right out the air lock again!
Right out the air lock again!

This is crazy.
Can't believe what I'm hearing!
They're trying . . . to do us in!
We thought we could help them,
But they're gonna toss us...
Right out the air lock again!
Right out the air lock again!

Way to go, Nathaniel!
Have a blast!
Love, Mom, Dad, and
Emily

SAVE THE DAY

Now it's time to make a plan
And we're standing hand in hand
We have our diff'ren'ces for sure
But now we have a common goal

In our past we may have
dis-a-gree---eee-eed
But we can't just work alone

We'll rescue kids and save the day
Together we will find a way
Catch the thieves and make them pay
Together we will find a way

Fly our spaceship through the sky
Hold on tight, we're flyin' high
Let your fears leave through the door
We can save the day for sure

In our past we may have
dis-a-gree---eee-eed
But we can't just work alone

MILLION LIGHT YEARS

If we had a million light years,
If we had a million light years,
We'd fly all through space.
We would fly all through space.

And if we had a million light years,
If we had a million light years,
We could live in an exotic place.
Like the Milky Way or the Kepler Belt.

And if we had a million light years,
If we had a million light years,
We'd hang out near a favorite star: A
Regulus... or a Ringo!
And if we had a million light years,
We'd fall in love...

If we had a million light years,
We wouldn't have to follow the rules.
If we had a million light years,
Anything we wanted would just be
cool.
If we had a million light years,
We wouldn't have to save those Earth
kids.

But we would save those Earth kids.
Of course we would. We'd just... do
more!
We'd destroy anything and anyone
that came near them!
Within reason. Let's not get carried
away.
Oh, lighten up, already!

If we had a million light years,
If we had a million light years,
We could go and see the little green
men.
But not the real green men--that's
cruel.

And if we had a million light years,
If we had a million light years,
You could learn to have a little fun.
And you could finally figure out what
your brain is for.

If we had a million light years,
If we had a million light years,
We could leave the room if we had a
fight.
Sometimes, you gotta walk away.
And if we had a million light years,
We'd fall in love...

If we had a million light years, If we
had a million
li-i-ight ye-e-ears...
We'd have space.

We will make you help
We will make you give us fuel,
make you give us fuel (oh, oh!)
Our caustic, poison fuel
Please help me, I'm scared.to.touch.it.

Don't touch the fuel,
it's chemical poison
Changing form when it gets cold
Don't touch the fuel,
it's chemical poison, but we
Need it to find our way home
The fuel! The fuel! The poison fuel!

Di-hydrogen monoxide!
Oh, how cruel!
Give it up ... or you'll be history!
Help us, help us,
please, please , set us free!
We will make you help

BACK UP! I NEED SOME SPACE

Oh don't you dare look back
Just keep your eyes in place
We'll travel through the stars
We say ...
Back up! I need some space!

With martians and the human race
We say ... ooo oo ooo!
Back up! I need some space!

Abducted in the night
The teens were victims
filled with fright
Martian joy-ride caused a plight
Oh ... they were...
..bound to get in trouble!
..bound to get in trouble!!

But then we found
That we could work together
We took to space, and we said

Pluto planet made of ice
Council bounty did entice
Indigo fine'ly rolled the dice

THAT'S WHY WE DID IT

That's all
That's our show for this year
and we're glad
that you all could be here
And we hope that we brought you
some cheer
That's why we did it.

The set, the director, the script
and the score with a musical hit,
and the guys who worked
backstage or pit.
They also did it.

You sing and dance
and you practice your lines,
Rehearse and rehearse them
a few thousand times.
Never quite sure that it's right
And then curtain up, 'cause it's
opening night.

So you smile,
sing and dance like a pro,
Make 'em laugh,
make 'em yell, steal the show
Then applause, curtain down,
time to go

We'll do it again, next year once again
We'll entertain you.

THANK YOU TO ALL OUR
SPONSORS

VOLUNTEERS WHO
HELPED MAKE THIS
PRODUCTION POSSIBLE.
